

# RETRO CAFE SEATING

As a result of popular demand for more bespoke and on trend cafe seating options, BUK has developed a fashionable and hardwearing coloured laminate option for two of their best selling models; the Venus and Space side chairs.

Venus and Space TWO TONE LAMINATE side chairs can now be bought in a wide range of colours and a selection of wood effects, both with a choice of leg finish, to create your own bespoke project colour schemes. Speak to your account manager for more information.

We'd like to present here, in line with the season's trends, the following suggested colour co-ordinated themes:

## VENUS 50s MONOCHROME

Black and white is a perennial trend and still very evident at the Milan and Cologne shows. We wanted to give our classic Venus side chair the black and white treatment in sleek, clean looking laminate, creating a cool, elegant, minimalist design that is easy to use. Monochrome combinations go well with everything and especially when used with bright colours and bold art work.

## VENUS 50s COLOURS

This trend for Scandi 50s colours - bright and subtle – as seen in retail and the various Scandi TV dramas, is gathering momentum. We juxtaposed colour blocks of yellow, pale blue and pistachio with wenge and chrome for a distinctly mid-century feel. A relaxed, stacking design in practical laminate, reminiscent of Formica and Fablon, this retro Vinyl-style take on Venus is very now and starting to appear in cafes and dining malls across the country.

## SPACE 70s NEUTRALS

The clean, minimal contours of Space are a great vehicle for combining high tech wood effect Zebrano and Avola with a warm, earthy 70s palette. Additionally, we offer a range of metallic finishes on a stacking, tubular legged frame, to create the back to nature meets space age feel of the 70s. A great example of interiors following fashion, we have mixed tonal shades and wood grains to make a classic, bespoke statement.
